

## Neural Circuit Basis of Behavior and its Disorders

Suzhou, China

November 5-9, 2012

Organizers:

**Guoping Feng**, *Massachusetts Institute of Technology, USA*  
**Yasunori Hayashi**, *Brain Science Institute, RIKEN, Japan*  
**Minmin Luo**, *National Institute of Biological Sciences, China*  
**Richard Morris**, *The University of Edinburgh, UK*

We are pleased to announce the Cold Spring Harbor Asia conference on Neural Circuit Basis of Behavior and its Disorders which will be held at the Suzhou Dushu Lake Conference Center in Suzhou, China, located approximately 60 miles west of Shanghai. The conference will begin at 7:00pm on the evening of Monday November 5, and will conclude after lunch on Friday, November 9, 2012. It will include a combination of oral sessions and poster sessions, covering the latest findings across many topics in neuro circuit research by bringing together a group of scientific leaders.

### Major Topics:

- Development and Genetics of Neural Circuits
- Circuit Mechanisms of Perception, Cognition, and Learning and Memory
- Neuromodulators in Circuit Function and Behavior
- Circuit Dysfunction and Psychiatric Disorders

### Registration available until November 5, 2012

The on-line registration will be available until the meeting starts. But early registration will help to save cost. Rates vary for corporate/industry, academic (PhD, MD, staff scientists) and student (up to PhD) attendees. Endowed student package costs as low as USD250/CNY1530 before August 24, 2012.

### Abstracts due August 24, 2012

We encourage abstracts to contain new and unpublished materials. Selection results for short talks (10-20) and poster presentations will be made by the organizers on the basis of scientific merit and relevance.

**Fellowships of up to \$500 (USD)** are available to participants who have an abstract accepted for poster presentation.
